Our vertical axis wind turbines come in many sizes and shapes from our 750 watt wind turbine up to our 5kW wind turbine. Affordable, attractive, and Ultra Quiet, creating clean energy from the natural wind.

Continuously improved lightpole products reflecting market feedback and current technological innovations. Light pole systems that are completely upgradable for future, more efficient generations.

A 2kW horizontal axis wind turbine is a small-scale wind energy system designed to generate up to 2 kilowatts (kW) of electrical power. It features a horizontal axis, ...

Can power devices from 24V, 48V & 60V DC and more. Provides power supply ...

Our 2kw OFF Grid Wind Turbine is a simple easy maintenance free power source that will save you money and drive down the cost of the Electricity generating ...

Wind turbines can be configured to match any site or wind condition. With our blade design and configuration, we can supply you with the proper wind turbine for your particular project.

The PowerMax system is one of the best wind generators on the market so far. The robust design and fine finish makes the product much better than the other ...

All of our wind turbines can be installed on-grid or off-grid. For an on-grid connection we use Inverters specifically matched to our wind turbine controller.

OWELL 2kw wind turbine generator. Wind wheel: 3 blades wheel, Laminar flow ...

Experience the benefits of our Wind Turbine Generator, featuring a Double Bearing design for enhanced stability. With Low Vibration and Low Noise, this Compact and Efficient device is ideal for generating ...

2kW wind generator

2KW Wind Turbine System Product Description: Our compact and efficient 2kW wind turbine system is a versatile renewable electricity solution tailored for a ...

An advanced wind turbine generator that took years to develop and test. Light weight, high powered, and encased in a rugged housing for long life.
