We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Our alfanar Photovoltaic container is supplied fully equipped with photovoltaic central inverters (1000V or 1500V), oil-filled hermetically-sealed LV/MV transformer, Ring Main Units (RMU), low voltage cabinet ...

We have developed a 600kWh 1MW Battery Energy Storage System (BESS) that is designed to be cost-effective and easy to install for on-grid, off-grid, or hybrid commercial/industrial energy storage ...

600kw solar container plays a significant role in promoting sustainability by enabling efficient utilization of renewable energy sources. By storing excess energy generated during peak production times, these ...

A plug-and-play solar power container is not only a deployment solution but also a long-term energy asset. Factory-standardized production improves component consistency and simplifies maintenance ...

The usage of solar photovoltaic (PV) systems for power generation has significantly increased due to the global demand for sustainable and clean energy sources.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Whether you need residential photovoltaic storage, commercial BESS systems, industrial energy storage, mobile power containers, or utility-scale photovoltaic projects, WALMER ENERGY has the ...

Equipped with photovoltaic MPPT interface, PCS, STS (grid connected and off grid switching, diesel generator interface, fire protection, monitoring system, etc.)

600kW Photovoltaic Containerized Unit Promotion

Immerse yourself in the future of power management with this modular battery storage container, offering seamless integration into intelligent grids and ensuring uninterrupted energy supply.
