Miles-long rows of solar panels humming under the desert sun, powering whole regions. This list cuts through the noise, ambitious ...

Shanghai has approved the Fengxian 1# offshore photovoltaic project, the first commercial-scale solar-wind hybrid of its kind in China.

The United States Large-Scale Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. photovoltaic (PV) facilities with capacity of 1 megawatt or more. It ...

The utility-scale data covers all operating solar farm phases with capacities of 1 megawatt (MW) or more and all announced, pre-construction, construction, and shelved projects with ...

FirmoGraphs is tracking more than 100 very large solar projects starting construction in 2023 with a total estimated value of nearly \$40 billion.

Down in the Midwest, the Kelso 1 and 2 Solar Projects are making big moves. Together with Arevon Energy, they'll deliver 430 MW ...

China is using the high-altitude expanse for immense solar panel farms and wind turbines and has begun work on the world's largest ...

Committed to Restoring America's Energy Dominance.

Most are individual photovoltaic power stations, but some are groups of co-located plants owned by different independent power ...
