Several large-scale solar power plants have come online in recent years, significantly contributing to the growth of solar energy production. The Masrik-1 Solar Plant, Armenia's largest ...

Armenia's solar sector saw record growth in 2025, adding 615 MW to reach 1.1 GW total and meet a key 2030 national energy target five years ahead of schedule.

Consumers are allowed to install solar panels with total power of up to 150 kW, and may sell any surplus to electricity distribution company Electric Networks of Armenia (ENA).

Located close to the Lake Sevan, the 62 MW dc project will be the biggest PV power plant in Armenia. Built with double-faced solar panels, the project will be contributing to the country's sustainable ...

Armenia's mountainous terrain and 300+ annual sunny days make it an ideal candidate for photovoltaic systems. The Gyumri Solar Project - operational since 2022 - stands as a 12 MW clean energy hub, ...

Spearheaded by the Shtigen Group, this ambitious project promises to reshape the country's energy landscape and significantly reduce its carbon footprint. Armenia's Largest Solar ...

Armenia and the UAE have agreed to begin the construction of the industrial-scale photovoltaic solar power plant "Ayg-1" in Armenia in early 2026.

The Global Context: Examining the Armenian solar panel subsidy and Worldwide Push for Rooftop Solar Governments across the globe are increasingly recognizing the power of rooftop solar ...

Armenia adds around 615 MW of solar in 2025 Armenia enjoyed a record year for solar deployment last year, surpassing 1 GW of cumulative solar capacity.

Developed by the Dutch-Emirati company Fotowatio Renewable Ventures (FRV), Masrik 1 was Armenia's

Armenia solar Panel Project

first utility-scale photovoltaic power plant. Its construction marked a significant step ...
