Growing electric vehicle adoption, government incentives, and rising consumer demand for renewable energy storage are some of the factors contributing to the Thailand lithium-ion battery market share.

With a focus on efficiency and quality, Busch Thailand contributes to the smooth operation of battery manufacturing processes, ensuring the production of high-performance lithium-ion batteries.

A Bangkok battery-swap pilot for motorcycle taxis can reduce downtime, fire risks and drive affordable EV adoption across the region.

Held in the vibrant city of Bangkok, Thailand, this exhibition brings together leading companies, experts, and professionals from around the world to showcase the latest technologies, products, and ...

Toshiba's EV battery swap tests in Bangkok represent a significant step towards accelerating the adoption of electric vehicles in Thailand. By leveraging its advanced SCiB(TM) battery technology, Toshiba is ...

On March 20, 2025, 3K Battery had the great honor of receiving the Best Performance Award at the Suvarnabhumi Grand Ballroom, Hyatt Regency Bangkok Suvarnabhumi A...

Compared with a lithium-ion battery, SIB offers faster charging times, higher stability, better safety under wide temperature conditions and is eco-friendly.

The "ASEAN (Bangkok) Battery & Energy Storage Expo", commonly known as the ASEAN B& E Expo, is a leading trade fair specializing in battery and energy storage technologies. It takes place annually at the ...

Southeast Asia's battery energy storage market has moved past its experimental phase. What was once a patchwork of pilot projects is now a competitive arena, shaped by policy mandates, technology ...

Bangkok battery performance

As Trittek expands its presence in Thailand, the company is well-positioned to deliver high-performance, safe, and customized lithium-ion battery solutions for a variety of applications, from electric vehicles to industrial
