Is totalenergies launching a second battery storage project in Belgium?

On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the company announced the development of a second similar project in Belgium. The new project will be located at TotalEnergies' depot in Feluy, featuring a power rating of 25 MW and a capacity of 75 MWh.

Where is totalenergies launching a battery farm project in 2023?

Paris, May 15, 2023 - TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. A first flagship energy storage project in Belgium

When will totalenergies start-up in Belgium?

Start-up is expected at the end of 2025. These two projects, which represent a global investment of nearly EUR70 million, will bring TotalEnergies' storage capacity in Belgium to 50 MW / 150 MWh. These battery storage sites play a key role in the resilience of the electricity system, providing flexibility and helping solve grid congestion problems.

What is nhua energy's 88-container battery energy storage system?

The 88-container, four-hour BESS will boost grid flexibility and help integrate wind and solar. NHOA Energy has been awarded by ENGIE a contract for the supply, commissioning and long-term service of an 80 MW/320 MWh battery energy storage system (BESS) at ENGIE's Drogenbos power station near Brussels.

ENGIE has awarded NHOA Energy the contract to supply, commission, and provide long-term services for a new 80 MW / 320 MWh Battery Energy Storage System (BESS) at ENGIE's ...

The new battery system joins Engie's expanding Belgian energy storage portfolio, which includes the operational Vilvoorde facility and the under-construction Kallo project.

To address these issues, a factory user in Belgium worked with SCU to introduce a 20ft containerized energy storage system to achieve grid-connected operation and peak load shifting, ...

Belgian container new energy battery factory

Today, on November 14, 2025, ENGIE has started commercial operation of all 320 lithium-ion battery containers of its Vilvoorde Battery Energy Storage System (BESS) in Belgium.

To address these issues, a factory user in Belgium worked with SCU to introduce a 20ft containerized energy storage system to achieve ...

The new project in Feluy will have a power rating of 25 MW and capacity of 75 MWh. The project will use forty Intensium Max High Energy lithium-ion containers supplied by Saft. Total ...

TotalEnergies has announced the development of a second battery storage project in Belgium. The announcement was made during Belgian Energy Minister Tinne Van der Straeten's ...

NHOA Energy will deliver an 80 MW/320 MWh NHEXUS battery system at ENGIE's Drogenbos station near Brussels under a 15-year contract. The 88-container, four-hour BESS will ...

The batteries, 40 Intensium Max High Energy lithium-ion containers, will be supplied by Saft, the battery subsidiary of TotalEnergies, confirming its position as European leader in industrial ...

This marks the beginning of a transformative journey, not only for our company, but for the entire Benelux Region. The BE-VOLT factory, a 100% subsidiary of AVESTA Holding, ...

It will have a power rating of 25 MW and capacity of 75 MWh, thanks to the forty Intensium Max High Energy lithium-ion containers supplied by Saft. Start-up is expected at the end of 2025.
