Meet the team at Bjarke Ingels Group (BIG). Explore our partners, architects, and specialists shaping the future of architecture and design.

With solar panels now commonplace on residential roofs, homeowners are exploring next-level energy technology, specifically Energy Storage Systems (ESS), or backup battery systems, for the home.

Energy storage fixes this problem. It works like a large tank that saves extra clean energy when there is plenty and lets it out when people need it. This "time-shifting" of energy does two important things: It ...

Shaped by the movement of the water, the surrounding park is designed by BIG Landscape and manages storm surges through sloping terraces, vegetated dunes, and wetland gardens that slow ...

Like a little sister to the Suzhou Museum of Contemporary Art, the Jinji Lake Pavilion seeks to reimagine the future architecture and landscape of the Lake District rooted in the rich heritage of Suzhou's ...

The EG4 WallMount 314Ah All-Weather Battery is a high-capacity 16kWh, 51.2V LiFePO4 energy storage solution designed for outdoor solar, off-grid, and whole-home backup systems. Featuring a rugged IP67 ...

We tested and researched the best home battery and backup systems from brands like EcoFlow and Tesla to help you find the right fit to keep you safe during outages or reduce your reliance on...

There are three main use cases for adding a battery storage system to your home. Time-of-Use Shifting. Sometimes called solar arbitrage or load shifting, Time-of-Use shifting allows you to capture the ...

At the foot of BIG HQ, BIG's Landscape team has transformed a former parking area into a 1,500 m2 public park and promenade, inspired by the sandy beaches and the coastal forests of Denmark.

There are three main use cases for adding a battery storage system to your home. Time-of-Use Shifting. S
