At over 35 tons it's the solution to so many problems facing the electrical grid like harmonic distortion, angular instability, security, and peak load demands. The one-megawatt barrier is shattered in ...

With a growing global customer base and deployment portfolio, Amber Kinetics is committed to providing the most-advanced flywheel technology, backed by the industry's most comprehensive protection plans.

Founded in 1997 and headquartered in Tyngsboro, Massachusetts, it specializes in flywheel -based energy storage. Beacon designs and develops products aimed at utility frequency regulation for ...

The company specializes in renewable energy management and energy storage systems, offering innovative products designed to optimize energy use and reduce costs for businesses and ...

The company is a global leader in energy storage and was one of the first to enter the battery storage market, highlighting its commitment to innovative solutions that enhance renewable energy ...

Advanced flywheel technology Revterra's system stores energy through a spinning rotor, converting electric energy into kinetic energy and back when needed. Using magnetic bearings and steel alloys, ...

Helix Power makes grid scale energy storage, enabling a sustainable zero-carbon future

Meet our award-winning system Flywheel and battery energy storage, energy management software, security protection, 24/7 monitoring, and O& M support, combined into a seamlessly integrated solution.

We're filling the critical short duration gap between supply & demand with our proprietary, patented flywheel short-term energy storage system. The implementation of Helix's technology enables a zero ...
