Can a BYD electric car battery be replaced?

Yes, BYD's electric car battery can be replaced or upgraded. However, it is recommended to have it done by a certified technician to ensure proper installation and prevent damage to the vehicle. Is BYD's electric car battery covered by a warranty? Yes, BYD's electric car battery comes with a warranty that varies depending on the model and capacity.

How long does a BYD battery last?

The battery of electric vehicles from BYD typically comes with an 8-year or 150,000 km warranty. During this period, any battery issues will be replaced free of charge. If the warranty period expires or if the battery needs to be replaced for other reasons, the cost varies depending on the battery capacity and vehicle model.

Do BYD batteries have a warranty?

A strong battery warranty can greatly affect the total costs of replacing BYD batteries. Many companies, like BYD, offer warranties that cover possible battery problems. These warranties often last up to eight years or have a specific distance limit. This kind of coverage can help lower costs for people facing battery performance issues.

How much does a BYD battery cost?

BYD is one of the major battery manufacturers in the market, and the cost of their batteries can vary depending on the model of the car. According to reports, the average BYD battery cost for their models ranges from \$7,000 to \$15,000. The BYD e6 battery cost is around \$15,000, while the BYD Tang battery cost is approximately \$14,000.
