Where can I buy a hybrid inverter?

Thanks to our cooperation with Europe's leading distributors in the solar and photovoltaic trade, we at Solartraders can guarantee permanently low prices. In our range you will find hybrid inverters from all leading manufacturers in the industry, such as Huawei, SMA or Fronius.

What is a hybrid solar inverter?

Unlike conventional inverters, which simply convert the direct current from the solar panels into alternating current that can be used by your appliances, the hybrid inverter also incorporates battery management functions and intelligent interaction with the electricity grid.

How do hybrid inverters work?

Most hybrid inverters' default operating mode, or power flow direction, is from the solar panels directly to the household loads. If the solar array generates more power than is being used by the loads, the excess solar energy is diverted to charge the battery.
