Are sunpok sodium-ion batteries environmentally friendly?

Finally, SUNPOK sodium-ion batteries are an environmentally friendly and sustainable energy solution. Sodium is a widely available and cheap element that is more environmentally friendly than lithium. Moreover, the manufacturing process of sodium-ion batteries uses relatively few rare materials, reducing unnecessary consumption of resources.

What is a 90kwh energy storage battery system?

With the 90kWh energy storage battery system, the solution can store excess power when there is sufficient sunshine for use at night or on rainy days, thereby achieving a 24-hour uninterrupted clean energy supply.

Our 48v Solar Battery is equipped with advanced lithium-ion technology, offering a longer lifespan and higher energy density compared to traditional lead-acid batteries.

As one of the most professional 48v lithium ion battery pack manufacturers and suppliers in China, we're featured by quality products and good price.

It integrates battery cabinets, lithium battery management systems (BMS), and container dynamic environment monitoring systems, and can integrate storage batteries according to customer ...
