---

The base station power cabinet is a key equipment ensuring continuous power supply to base station devices, with LLVD (Load Low Voltage Disconnect) and BLVD (Battery Low Voltage Disconnect) ...

The hybrid power systems, combining solar and generator technology, are set to improve telecommunications in the Solomon Islands, providing uninterrupted power supply to the six mobile ...

The project plans to construct 161 3G/4G wireless communication base stations on 35 major islands in the Solomon Islands" nine provinces. The construction, to last for three ...

11kV switchgear project The 11kV switchgear project involves the design, manufacture, testing, installation and commissioning of switchgear facilities for the Honiara power [...]

Our Angle Steel Tower Factory offers top-tier solutions for power transmission and communication infrastructure. Built with precision, tested for durability, our towers stand strong against the elements.

The project plans to construct 161 3G/4G wireless communication base stations on 35 major islands in the Solomon Islands" nine provinces. The construction, to last for three years, started on Aug. 28, ...

This project involves the construction of a new power station on the existing site and the supply and installation of 3 new 500KW generators, associated switchgear and transformers.

The project aims to construct 161 3G/4G wireless communication base stations across nine provinces in the Solomon Islands. Once completed, the project will significantly enhance the ...
