Klimaenergi A/S is a leading manufacturer and service provider of solar energy solutions in Denmark, specializing in the installation of high-quality solar panel systems.

Your single source: High-efficient float glass production, glass coating, glass processing as well as high-capacity production of flat solar mirrors. Everything is highly automated, precise and efficient.

As a leading solar-powered glass manufacturer, First Glass is dedicated to innovation in the development and production of advanced solar-powered glass solutions.

The innovation, led by the CitySolar project at the University of Southern Denmark, has set a new world record for solar efficiency in transparent panels. By combining organic solar cells ...

Danish Solar Energy manufactures broad range of high quality photovoltaic technology for standard modules and BIPV. Danish Solar Energy was established in 1993 and offer complete photovoltaic ...

The architect-designed glass modules from HEM open up new possibilities that give the architect further freedom and creativity when it comes to combining environmental awareness and aesthetics with ...

The NSG Group offers a range of specialised glass and coated glass products used in all of the leading solar energy technologies, including thin film photovoltaics, crystalline silicon photovoltaics, ...

Danish Solar Energy is proud to produce what is probably the world's most efficient range of colored solar modules. This groundbreaking technology is particularly appealing to the construction industry, ...

DanSolar is a Danish-owned company founded in 2006. With DanSolar, you get a strong and highly experienced solar cell supplier.

Danish new energy solar glass manufacturer

Specialising in building-integrated photovoltaics, SolarLab replaces traditional facade materials with solar panels, generating renewable energy on-site. The move supports growing ...
