Do you regret installing rooftop solar panels?

Homeowner reveals candid thoughts years after installing rooftop solar panels: 'If I were to do this again today...' One homeowner shared some of his solar power regrets, trying to help others avoid making the same mistakes when installing panels.

Why do homeowners regret installing solar panels?

Low-quality or poor-standard panels may cause more problems than they solve. Solar panel manufacturers often promise high output levels for their products. However, if these promises aren't met due to inferior materials or manufacturing processes, it's easy to see why homeowners regret installing solar.

What regrets do you have about solar panels?

His second regret was not having a monitoring system, which can show you how much energy your panels are generating, how much money you're saving, and the health of your solar panels. He even mentions, 'it is kind of fun though to see how it's doing.' The last regret he had was not getting a larger system.

Do you have candid thoughts after installing rooftop solar panels?
