How do I find electric vehicle charging stations?

Explore the electric vehicle charging network thanks to the Electromaps app. Find stations, join the community, and plan your charging routes.

How is chargefinder updated?

ChargeFinder is continuously updated with new charging stations from the larger charging networks, individual smaller players and a variety of other data sources. The information is continuously supplemented and refined with the help of ambassadors and our growing community.

How do I find out if a charging station is nearby?

The station page shows the charging speed, outlet type, number outlets, price, which operator owns the station, and other relevant location information. With ChargeFinder's "Food and Shopping Nearby" it's easy to find out if there are eateries or other points of interest adjacent to the charging station.

How does chargefinder work?

The information is retrieved in real time from various operators to ensure high reliability. Live status for all major operators in one place is unique and something ChargeFinder is the only one to show. From the overview there is information about number of chargers that are available, occupied or out of order.
