Will Middle East electric car market reach \$54 billion by 2035?

The Middle East electric vehicle (EV) market is still in its early stages but could reach \$54 billion by 2035, potentially making up nearly two-thirds of new car sales. Government actions through favorable policy-making are crucial to unlocking this growth.

How big is the EV market in the Middle East?

The Middle East's electric vehicle (EV) market is in its early stages but could grow to \$54 billion by 2035. By then, EVs might represent nearly two-thirds of overall new car sales in the region. Both public and private sectors are working to build a robust EV ecosystem, pushing the Middle East toward a transformative EV journey.

How many electric cars are there in Ethiopia?

The Ministry of Transport of Ethiopia reports a stock of 100 000 electric vehicles but does not define how many of these are cars. In contrast, EV Volumes reports about 1 300 electric car sales in the past 5 years. IEA. CC BY 4.0. Sources: IEA analysis based on data from EV Volumes.

Who are EV buyers in the Middle East?

Bain & Company research identified three buyer personas: EV enthusiasts (~20%), EV explorers (~50%), and EV skeptics (~30%). Targeted initiatives for these personas need to be developed to stimulate EV adoption in the region. The Middle East's electric vehicle (EV) market is in its early stages but could grow to \$54 billion by 2035.
