What are pattress boxes?

Pattress boxes are surface-mounted electrical boxes fixed directly onto the wall or other surfaces. Unlike back boxes, they do not recess into the wall, making them easier to install where wall cavity depth is limited or where surface mounting is preferred.

What are the different types of pattress boxes?

Find surface pattress boxes in various sizes and configurations, including 1 and 2-gang options. Shop from trusted brands like Axiom and Appleby. Our PVC socket boxes are made from flame-retardant thermoplastic for electrical and fire safety. Browse metal pattress boxes made from galvanised steel for durability and corrosion resistance.

Do you need an electrical back box?

All the wiring accessories, such as switches, sockets, dimmers, spurs, cooker switches, LED dimmers, dollies, etc require an electrical back box. In this category, you can find the most popular Electrical Back Boxes and Pattress Boxes, together with the other required frames and yolks needed for mounting the switches and sockets.
