What is the Niue strategic energy road map?

The Niue Strategic Energy Road Map (NiSERM) 2015-2025 outlines Niue's aspiration to meet 80% of its electricity needs from renewable energy sources by 2025, which would in turn reduce the country's high reliance on imported fossil fuel.

Will Niue meet 80% of its electricity needs by 2025?

The NiSERM outlines Niue's aspiration to meet 80% of its electricity needs from renewable energy sources by 2025, which would in turn reduce the country's high reliance on imported fossil fuel. This aspiration underpins Niue's contribution in this INDC, outlined in Section 6.

Is Niue dependent on imported fuel?

However Niue is 96% dependent on imported fuel for power generation and 100% dependent on imported fuel for land, sea and air transportation. Reliable, affordable, secure and sustainable energy supply is key to achieving prosperity for all Niueans.

What is Niue's energy security roadmap?

This roadmap represents a whole-of-government approach to addressing the energy security challenges of Niue which looks at the energy sector as a whole - electricity, renewable energy, energy efficiency and petroleum - and is supported by development partners for its implementation. Achieve a reliable, affordable and sustainable energy supply.

Energy independence niue The Niue Government's commitment towards energy efficiency by 2025 will see Island Power in collaboration with Government authorities, introduce USD750,000 investment as ...
