-----

The offshore wind power industry clusters in China e construction of offshore wind industry clusters. The focus is on building offshore wind bases in Guangdong, Fujian, Zhejiang, Jiangsu and Shandong, ...

Fengxian Offshore Wind Farm is a 414.4MW offshore wind power project. It is planned in East China Sea, Shanghai, China.

Shanghai has approved the Fengxian 1# offshore photovoltaic project, the first commercial-scale solar-wind hybrid of its kind in China. The move marks a major step forward in the ...

The project is part of China"s efforts to expand its renewable energy capacity, particularly in offshore wind power. It aligns with national goals to reduce carbon emissions and increase the...

China"s 1.4 TW operating solar and wind outstrips thermal power In Q1 2025, China"s wind and solar capacity surpassed its thermal (coal and gas) capacity for the first time, supplying nearly 23% of the ...

Onshore wind farm Part #3: City: Jimo Commissioning: 12 turbines: Nordex N62/1300 (power 1 300 kW, diameter 62 m) Total nominal power: 15,600 kW Operational Onshore wind farm Localisation Part #1: ...

Generalities Wind farm name: Fengshan (Guangdong) Country: China County / Zone: Guangdong

To access additional data, including an interactive map of global wind farms, a downloadable dataset, and summary data, please visit the Global Wind Power Tracker on the Global Energy Monitor website.

Guangxi Fengshan Bulaoshan wind farm is a wind farm under construction in Changzhou Town, Fengshan, Hechi, Guangxi, China.
