Which energy storage cell manufacturers have the most shipments in 2024?

In the first three quarters of 2024, global utility-scale energy storage cell shipments reached 180 GWh, up 49.4% YoY. The top five manufacturers, CATL, EVE Energy, Hithium, CALB, and BYD, dominate the market, with the top two holding nearly 55% combined share. Hithium, CALB, and BYD each shipped over 10 GWh with similar volumes.

How did energy storage cell shipments perform in Q3?

In the first three quarters of 2024, global small-scale energy storage cell shipments reached 22.3 GWh, up 5.2% YoY. Shipments in Q3 grew 12.9% QoQ, signaling continued recovery.

How many GWh of energy-storage cells were shipped in the first quarter?

The world shipped 38.82 GWh of energy-storage cells in the first quarter this year, with utility-scale and C&I projects accounting for 34.75 GWh and small-scale (including telecom projects, hereafter as small-scale) projects 4.07 GWh, according to Global Lithium-Ion Battery Supply Chain Database of InfoLink.

What is InfoLink's global lithium-ion battery supply chain database?

InfoLink Consulting has launched its global lithium-ion battery supply chain database. According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipments reached 202.3 GWh in the first three quarters of 2024, up 42.8% YoY.

On May 20, 2025, InfoLink Consulting released its Q1 2025 Global Energy Storage Supply Chain Database, reporting global energy storage cell shipments of 99.58 GWh, a 150.62% ...

Global -- August 2025 -- Energy storage systems (ESS) are seeing explosive growth, with lithium-ion battery shipments reaching 250-258 GWh in the first half of 2025--a year-on-year ...

InfoLink Consulting has launched its global database of the lithium-ion battery supply chain, an essential element for the development of photovoltaic and wind energy. According to ...

PCS shipments to front-of-the-meter (FTM) energy storage siting accounted for over 50% of total global shipments over the forecast period (2023-30), with the United States and China mainland accounting ...

First quarter energy storage solar container lithium battery shipments

In Q1 2025, CATL maintained its dominant position in global energy storage cell shipments, driven by strong partnerships and large-scale ESS deployments. However, the ...

2 ???& #0183; According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipments reached 202.3 GWh in the first three quarters of 2024, up 42.8% YoY. ...

In recent years, the rapid growth of EV and energy storage markets has driven robust demand for lithium-ion batteries (LiBs). Data shows that in 2023, the total shipment of LiBs exceeded 1 terawatt ...

The world shipped 38.82 GWh of energy-storage cells in the first quarter this year, with utility-scale and C& I projects accounting for 34.75 GWh and small-scale (including telecom projects, ...

The top five global energy storage system integrators (AC side) in Q1 2025 were: Sungrow, Tesla, BYD Energy Storage, HyperStrong, and CRRC Zhuzhou Institute. The shipment performance of leading ...
