How do I set up an off-grid Solar System?

Step 1 - Add Your Appliances - The calculator is pre-populated with common off-grid appliances. Add, edit and remove appliances as needed Step 2 - Enter Sun Hours - See map below to find your zone Step 3 - Review Results - Battery Bank Amp Hours and Required PV Array will show your requirements

Do you need a dryer if you're off-grid?

Gas dryers are the way to go for Off-Grid and they are second only to a solar dryer (clothesline) But if you really like those fluffy towels a machine dryer is a requisite.

Do you need a solar panel to run a DC freezer?

Some situations cry out for them. We sell a lot of DC freezers to beach front beer stands who run them from a couple of solar panels. They turn the thermostat up to 32 and stuff it with beer or other drinks. In a home situation you will probably save money by not having to buy more solar panels and batteries to run an AC unit.

Discover Xindun versatile 15KW off grid solar system with battery storage backup. Customized 15 kw solar system to fit your unique needs.
