The Grenada Utilities Regulatory Commission is inviting expressions of interest for a 15.1 MW solar power project at Maurice Bishop International Airport, potentially including a 10.6 MW/21.2 MWh ...

The Grenada Utilities Regulatory Commission is inviting expressions of interest for a 15.1 MW solar power project at Maurice Bishop International Airport, potentially including a 10.6 MW/21.2 ...

The Sub-Project involves engineering design, procurement and construction of the BESS and associated 33kV transmission lines and substations to support the 15MW solar PV farm to be ...

Although the three solar plants are associated facilities and will not be funded by the WB, they are included in this ESIA. The three plants will have a collective generation power of 15.1 MW amounting ...

In December last year, at the COP28 talks, GEAPP launched the Battery Energy Storage System Consortium (BESS Consortium), through which 11 countries, including India, pledged to facilitate ...

PURC is seeking an independent power producer (IPP) to develop and operate either a 15.1MW standalone solar PV plant or a solar-plus-storage plant combining 15.1MW of solar PV and a ...

Grenada has launched a tender for consultancy services to support the construction of a battery energy storage system (BESS) at Maurice Bishop International Airport, with expressions of...

The project seeks to integrate three solar photovoltaic generating facilities totalling a 15.1MW capacity and a 10.6MW/21.2MWh Battery Energy Storage System (BESS), with Grenlec ...

Public Utilities Regulatory Commission (PURC), in its capacity as the procuring entity has engaged Rocky Mountain Institute (RMI) to assist with developing, procuring, and implementing large ...
