Where can I buy a server rack?

With a large inventory of server racks and server rack accessories, Dataworld has everything you need to keep your data setup organised and safe. If a floor-mounted cabinet does not fit your needs, we also stock wall-mounted cabinets. Dataworld is 100% Australian-owned and all orders are dispatched within 24 hours of the order being placed.

How deep should a server rack be?

Cabinets range from 600mm to 1200mm in depth and should be deeper than your deepest rackmount server to allow for internal working space. A two-post server rack is suitable for lightweight equipment, while 4-post server racks and cabinets come in a variety of sizes and shapes to hold a vast array of server components and devices.

What size data cabinets are available at comms Express?
