-----

Equipped with CAN, Ethernet, and RS485 communication protocols for real-time energy management. IP54 protection, transformer isolation, intelligent air cooling, and reliable operation from -25°C to 60°C.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

The CX-CI001 lithium battery energy storage cabinet can be customized for on-grid/off-grid operation mode, provides UPS functions, and can be flexibly expanded.

All-in-one 50kW/100kWh ESS cabinet for solar storage, backup, and peak shaving. Outdoor-rated, air-cooled, and easy to install with full EMS control.

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

IP54-rated cabinet with active thermal management for harsh weather and temperature extremes. Supports parallel connection for flexible system expansion based on project needs. Integrated BMS, ...

Energy storage outdoor integrated cabinet is a distributed energy storage system suitable for industrial and commercial scenarios. It can convert renewable energy such as solar energy and wind energy ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

# Intelligent Energy Storage Cabinet for Island Use IP54

Enhance your energy storage capabilities with our cutting-edge 50kW/100kWh outdoor cabinet energy storage system. With a rated AC power of 50kW and a rated capacity of 100kWh, this system boasts ...
