Know a good solar joke? Send it to us, and we'll add it to our list! Send us your social media profile (Facebook, LinkedIn, or Twitter), and we'll credit you for it. My neighbor told me he was ...

Do you have solar panels on your home yet? I just had some put on. But I'm not sure if I'll keep them. The other day I was in my house and the computer and lights are flickering. So I did, what you would ...

Our survey reveals the most common myths Americans believe about solar panels, including why homeowners say they haven't installed them.

Solar panel puns are a bright way to add humor to the sunny world of renewable energy. They shed light on technical topics while making conversations more engaging and fun.

Green is woke, woke is green. You need a battery to store extra power as the feed in tariffs are incredibly low. Batteries cost thousands. Haven't set up anything wrong at all.

In recent years, the global demand for clean and sustainable energy sources has skyrocketed. Among the various renewable energy options available, solar power has emerged as a ...

Many skeptics claim that solar panels are a joke, but the facts tell a brighter story. With technology improving, costs dropping, and sustainability becoming essential, solar power is no ...

Not just any jokes, but the most energizing ones on the grid. That's why we've harnessed a list of the most hilarious renewable energy jokes. From wind-powered witticisms to solar-charged one-liners, ...

Generating all our electricity from solar power... is not going to happen overnight.

I'm talking about the 400 watt panel making 600 watts. It looks to me like he mistyped: a 400W panel should produce 530kWh in a year is likely what he meant. If you change it to that, it ...
