The Italian utility-scale battery storage market is one of the most exciting in Europe. Just under 4GWh is completed and/or operational, with a further 2GWh+ under construction.

Start of construction: Enel Green Power announces the start of construction of the Trino PV+BESS solar and storage park. The construction of the solar park led to the implementation of major conservation ...

Italy awarded all 10 gigawatt hours of the capacity it tendered in its first battery storage auction, recording an average price well below the cap set by the regulator, the CEO of grid...

Greenvolt stated that the project, with an estimated capacity of 75MW/600MWh, will be its first eight-hour Li-ion battery system and is expected to become one of the largest long-duration ...

The 220 MWh battery storage project in Sicily marks a major milestone for Italy's energy transition and a significant step toward a more sustainable and resilient energy system.

Zurich, 30 June 2025 - Galileo, the pan-European renewable energy development and investment platform, has completed the sale of a fully authorized 98 MW battery energy storage project located ...

Italy's installed storage fleet grew 23% by system count over the past year, but jumped 52% in capacity and 40% in power, according to new data highlighted by Italia Solare. Italy now ...

Located at Carboluscis" Nuraxi Figus coal mine in Sardinia, Italy, Energy Vault, starting from a first industrial prototype, is developing an innovative hybrid gravity + battery energy storage system to ...

"Broni Battery reflects our ability to move efficiently from engineering to execution, delivering tailored energy storage solutions that respond to the specific needs of the Italian power...

Italian battery energy storage power station

Italy's environment and energy ministry has approved six utility-scale battery storage projects in Lazio, Campania, Basilicata and Puglia.
