Does Italy have a new battery energy storage system?

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions--Lazio, Puglia, and Sardinia.

Why did Italy expand its energy storage capacity last year?

Italy significantly expanded its energy storage capacity last year, driven by large-scale projects exceeding 1 MWh. Anie, a division of national business organization Confindustria, reported that installed storage capacity surged from 507 MWh in 2023 to 3,359 MWh in 2024, while installed power capacity jumped from 222 MW to 851 MW.

Is Zelestra delivering a large-scale battery energy storage system in Italy?

Zelestra, a global, multi-technology, customer-focused renewable energy company, has signed a long-term tolling agreement with BKW, a leading energy and infrastructure company based in Switzerland, to deliver a large-scale battery energy storage system (BESS) - of up to 2 GWh - in the north of Italy.

Is Italy's energy storage landscape undergoing a major shift in 2024?

Italy's energy storage landscape is undergoing a major shift, with utility-scale battery energy storage systems (BESS) experiencing exponential growth in 2024, even as residential and commercial & industrial (C&I) installations decline, according to a new report by industry group Anie. Utility-Scale BESS Dominates Market

The utility-scale battery storage market in Italy is drawing huge interest, writes Solar Media Market Research analyst Josh Cornes.

Italy has approved 361 MW of battery energy storage systems to support renewable energy and grid stability across Lazio, Puglia, and Sardinia.

Portuguese renewables company Greenvolt Group today said it has emerged among the winners in Italy's first large-scale battery storage auction, securing 499 MWh of capacity.

According to Italia Solare's assessment, as of September 30, 2025, Italy had 848,814 connected electrochemical storage systems, representing a total energy capacity of 17,416 MWh and ...

Italian large-scale energy storage battery

Exide Technologies has signed a new contract with an Italian foundry, specializing in structural castings for the machine and energy sectors, to deliver its Solition Mega Three, a large ...

Zelestra and BKW have signed an innovative long-term tolling agreement that enables the delivery of one of Europe's largest battery energy storage systems (BESS), of up to 2 GWh, in ...

Utility-Scale BESS Dominates Market Italy significantly expanded its energy storage capacity last year, driven by large-scale projects exceeding 1 MWh. Anie, a division of national ...

Greenvolt Power has secured a 499 megawatt-hour (MWh) contract for its 75 megawatt (MW) battery storage project in southern Italy, following the country's first large-scale battery auction, ...

EP Produzione and Sungrow have signed an agreement to build a large-scale battery energy storage system (BESS) in Trapani, Sicily, using Sungrow's PowerTitan 2.0 product. Sungrow ...

The large-scale storage project is part of Galileo's Italian development pipeline, which currently includes over 3 GW of onshore wind, solar PV, BESS (Battery Energy Storage System) and ...

Zelestra and BKW have signed an innovative long-term tolling agreement that enables the delivery of one of Europe's largest battery ...
