Summary: Latvia is rapidly advancing in renewable energy and energy storage to achieve energy independence and climate goals. This article explores the latest trends, government initiatives, and ...

European Energy has secured EUR 37.9 million of long-term project financing for a hybrid solar and battery storage project in Saldus, Latvia. Once operational, it will be among the most ...

We have built two solar parks in Latvia, and by introducing a battery system, we can now ensure better utilization of the green energy produced.

Discover how Latvia's innovative energy storage initiatives are reshaping grid stability and renewable integration. This deep dive explores technical breakthroughs, market trends, and the strategic ...

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in ...

RIGA, Nov. 1 (Xinhua) -- Renewable energy company Utilitas Wind on Friday inaugurated the largest battery energy storage system (BESS) in Latvia to date, local media reported.

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

Estonian renewable power and heat producer Utilitas has inaugurated the first utility-scale battery energy storage system (BESS) in Latvia, a 10-MW/20-MWh facility.

European Energy, a Danish leader in renewable energy, is spearheading a significant hybrid project in Latvia, backed by a EUR37.9 million long-term financing package. The investment, ...

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage

Latvia Solar Energy Storage Unit 10MWh

system (BESS) last week (1 November) in Targale, a village in Latvia's north ...
