What is an IP65 enclosure?

Castors, support legs and risers. IP65 enclosures are general outdoor cabinets that provide basic waterproof protection. They are equivalent to NEMA 4 and NEMA 4X enclosures. Our enclosure designs provide high quality electrical enclosures for industrial applications that can be easily customized to meet IP65 standards at a standard-model price.

Is aluminum good for IP65 enclosures?

Aluminum has a layer of oxide on top that prevents any corrosion. This material is especially good for enclosures exposed to solvents, petrochemicals, some acids, most sulfates, and nitrates. So, if you are looking to put IP65 enclosures in such mildly hazardous environments, aluminum is good for that.

What is KDM IP65 enclosure?

KDM IP65 enclosure provides complete protection against dust or any materials to enter the enclosure. This enclosure is mostly placed outside, so you could guarantee it won't be easily damaged. This type of enclosure also offers enough protection to the people from accessing the component as it poses a lot of danger to them.

Are IP65 Enclosures Dust-tight?

Enclosures rated with IP65 are fully dust-tight, and protect from low-pressure water jets from any direction. High-pressure water jets can be measured at 12 liters per minute and could be rain, or water spray from nearby machinery. Also, IP64 enclosures work well in places with fog, humidity, oil, and corrosion. IP65 enclosure
