What is the microgrid Global Innovation Forum?

The 17th edition of the Microgrid Global Innovation Forum, 26-27 September 2023 in London, focuses on microgrid advances, case studies and deployments in remote, rural and off-grid environments, as well as in grid-tied scenarios.

Why do we need microgrids in North America?

In North America, microgrids as a means to achieve self-sufficiency in times of crisis or grid disconnection is a key driver, as is the desire to decarbonize the energy network while meeting the growing need for energy across all sectors.

Will the microgrid market grow in 2022?

The microgrid market in the U.S. reached 10 GW in the third quarter of 2022 and is expected to grow at an annual rate of 19% through 2027.\*

Can a microgrid meet energy demand?

Turkish startup Presify makes an energy management system for microgrids to meet energy demand while considering resource constraints. It features models for energy production from renewable and non-renewable sources, energy demand, battery storage systems as well as the cost of infrastructure and maintenance.
