Does Moldova have energy security?

Despite acceptable energy security levels in Moldova in 2019, the country faces exposure to gas supply shock risks due to its reliance on Russia for all of its gas via Ukraine. Two major supply disruptions occurred in 2006 and 2009 due to disputes between the two countries.

Does Moldova have gas storage facilities?

Moldova currently does not have operational gas storage facilities. However, the government is considering two possible sites for geological storage in the Zagarancea-Mânzesti-Unghenii de Jos villages area and in the Cantemir district. No concrete decisions have been taken on these developments.

How many pipelines are there in total in Moldova?

Moldova has a total of three transit pipelines with a combined length of 247 km (Moldova Transgaz) and a total capacity of 34.6 billion cubic metres per year (bcm/y). Another pipeline interconnection traverses Moldova in the north to connect two parts of the Ukrainian network.

How many people in Moldova use natural gas?

In 2019, natural gas transmission and distribution systems served almost 726 000 households and over 14 000 businesses through a total 24 600 km of pipelines.
