We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries ...

Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff zones SE3 and SE4.

Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy ...

Norway and Sweden's hydropower already functions as a natural battery, offering large-scale flexibility to the regional system through interconnectors. The potential for pumped hydropower storage is ...

As the Nordic countries push forward with rapid electrification and record-breaking renewable energy development, a new structural necessity is emerging in the energy system: the ability to store and ...

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ancillary services to help balance the grid for ...

As Europe's battery energy storage system (BESS) market rapidly expands, battery capacity has now surpassed 20 GW. While Norway once set ambitious goals to become the leader of the Nordic battery ...

The project, which will add 70 MW/140 MWh of storage to its Finnish renewable assets, is set for completion in 2026 in Nivala Municipality, Ostrobothnia. This development follows a significant wind portfolio ...

As energy stakeholders anticipate the completion of the Nivala-based infrastructure, the project led by SEB Nordic Energy's Locus Energy and Ingrid Capacity AB underscores emerging trends in energy ...

Nordic battery storage

Nordic Batteries" battery modules can be used standalone or installed in a battery rack. The company also delivers eENERGY and ePOWER battery packs complete with a battery management system ...
