What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

How do tileplus solar panels work?

That meant the TilePlus team had to improve the way the panels could produce electricity within that area. Normal photovoltaic cells are covered in horizontal metal thread, which conducts electricity around the panel and out through the cable in the rear.

What is a Sunshine tile?

The Sunshine product offers a complete replacement solution for metal tiles. Meanwhile, it's characterized with architecture aesthetic designed appearance. With customized color options, it is barely noticeable after installation.
