Why should you choose heisolar for a commercial solar-LED lighting system?

HeiSolar focuses on the high-quality commercial solar-led lighting system. We supplied thousands of solar street lighting systems for the UN project in past years. For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours.

Do solar street lights work for the UN project?

We supplied thousands of solar street lighting systems for the UN project in past years. For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours. Only with real high specification, the light can work well even in winter or on cloudy days.

What is a split-type solar street light?

R7 Series Split-type Solar Street Light 40W-300W (LiFePO4 battery with aluminum battery box separated, under the solar panel or hung on the pole. Now We have developed a full range of Split-type and all-in-two solar street light which covers different powers from 20W to 300W.

What is an-SSL-T solar LED street light?

AN-SSL-T 60W to 120W solar led street light with pole is widely applicable to roads, expressways, parks, plazas, villas and other strong wind rural mountain areas. Good for 6-9M poles, one-step plug-in for wiring connection, easy to install and maintain. The Details of All In Two Split Type Solar Powered LED Street Light (AN-SSL-T)
