How do I choose a rooftop solar system?

Flat or slightly sloped RCC rooftops are ideal. Check with your local DISCOM (distribution company) for grid connectivity rules. Apply for net metering to track energy usage and excess power sent to the grid. Solar systems are a long-term investment. Assess costs and available subsidies.

How do I choose a solar panel?

Here are some of the main ways to distinguish between panels when making your choice: Cost: Solar panel prices vary depending on the installer and manufacturer. Higher-quality, name-brand panels with better energy production typically cost more.

Are polycrystalline solar panels a good investment?

Polycrystalline solar panels are more affordable but provide lower energy production. Warranty: Consider solar panels with 25-year or longer warranties to protect your investment. Most manufacturer warranties last 25 years, while workmanship coverage lasts 10.
