At present, there are no works or closures on Metro Line 6. This century-old building, a testament to the metal architecture of the Paris metro dating back to the early 20th century, required ...

France has suspended high-speed rail services across much of the country after the network was hit by sabotage attacks hours before the Olympic Games opening ceremony.

For the past month and for the next 4 months, the apple green line cars will be regularly stopped entirely. There will be closures spread over several weekends until June, lasting between 1 and 2 days.

Arson attackers targeted rail network's "nerve centres", French PM says, as services slowly resume

All traffic to the train station, which hosts Eurostar trains as well as high-speed and local services, was closed as Paris police worked to disable the device.

A fourth attack on a southern line connecting Paris and Marseilles was foiled. The saboteurs cut fiber optic cables and set them on fire, which made it dangerous to operate trains on ...

Overnight attacks along France's high-speed rail network have caused widespread cancellations and delays hours before the Olympic opening ceremony. Authorities describe the acts ...

High speed rail services were cancelled with crowds building up at major train station across Paris. According to French reports, the arson strikes on rail lines were "coordinated" and ...

Stay updated on the service status of Île-de-France Mobilités transport network, including disruptions and real-time information for a smoother travel experience.

An unexploded World War Two bomb found near Gare du Nord station in Paris was defused on Friday after

Paris shuts down green base station services

trains to and from the station - one of Europe's biggest - were cancelled.
