What is JA Solar?

JA SOLAR stands for durable, high-performance PV modules that generate first-class energy yields. With our broad product portfolio, we offer sustainable and innovative solutions for residential, commercial and utility projects. As one of the first suppliers with industrial PV production capacity, we took on a pioneering role at an early stage.

What applications can JA Solar be used for?

Solutions for a number of applications can be found with JA Solar. JA Solar photovoltaic panels are designed to be used in ground-based as well as roof-top installations intended for either commercial or residential purposes.

What products does JA Solar offer?

The range offered by the company includes JA Solar monocrystalline solar panels, as well as other accessories for photovoltaic systems, such as silicon wafers, cells, monocrystalline modules, photovoltaic components, inverters, and load-bearing and mounting systems.

Can a certification mark be fixed on a photovoltaic module?

n Photovoltaic Module The product was tested on a voluntary basis and complies with the essential requirements. The certification mark shown above can be a fixed on the product. It is not permitted to alter the certification mark in any way. In addition, the certification holder must not transfer the certifi
