Why choose our photovoltaic module manufacturing equipment?

Our photovoltaic module manufacturing equipment are the result of our research and experience, but above all of our ongoing consultation with our customers. This means the product is specifically made-to-measure to their requests and needs, assuring a very flexible operating method when defining the order and during the production process.

How are photovoltaic modules produced?

Generally speaking, photovoltaic modules are produced by the use of automated equipment, and each one is designed for a specific function in the photovoltaic module manufacturing process. Therefore we are talking about serial or in-line machines, as production follows the same method as an assembly line.

Who is responsible for connecting new solar panels to the existing line?

Experienced engineers will take the responsibility of connecting the new machines to the existing line. ConfirmWare has been the synonym for high performance solar panel manufacturing equipment in both China and all the other parts of the world.

What equipment is required to produce solar/PV modules?

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cell laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, labeling, sorting, and packaging of the produced modules.

High technology accumulated in PV industry and ability of applying it to new industries We have accumulated high technology in PV industry from development and sales of PV module ...

Explore the leading photovoltaic equipment manufacturing companies, including Suntech and Adani Solar, driving the solar energy market forward.

ConfirmWare Solar Panel Making Machines ConfirmWare is a leading and trusted provider of automatic machinery for solar panel production lines for local and international manufacturers. All ...

Ecoprogetti Srl is the European market leader for Solar Panel Manufacturing Equipment. Each machine is

Photovoltaic panel assembly equipment manufacturer

100% produced in Italy since 1998.

Solar Ingot / Wafer / Cell / Panel Equipment Manufacturers A database of companies that manufacture production equipment for the solar photovoltaic industry. Please select the turn-key system or ...

Since foundation, Horad has been committed to becoming a leading manufacturer of intelligent PV panel production lines by focusing on the solar panel line R& D, designing, ...

Suzhou Gaorun is global turnkey solar panel production line solutions suppliers, Headquartered in Suzhou, Jiang-su province, China. Since 2007, we started to serve the photovoltaic industry and has ...

Shuofeng is a professional solar panel production line and industrial laser processing system, provider. Have more than 10 years of experience in the solar industry, Professional for solar industry ...

SEMIPHOTON, INC. together with our manufacturing Partners, offers state-of-the-art fully-automated and semi-automated Solar/PV modules production lines, designed to fit any capacity and factory ...

Our photovoltaic module manufacturing equipment are the result of our research and experience, but above all of our ongoing consultation with our customers. This means the product is ...
