When shopping for solar panels, you'll encounter three core types of warranties. Here's what they cover: Under product warranty, the manufacturer supports solar panel owners against defects that include ...

In this article, we'll discuss what a solar panel warranty is, what it covers, common exclusions and more to help you fully understand what to expect from your warranty.

Learn about solar panel warranties, including product, performance, and installer coverage, to protect your investment and maximize long-term savings.

Solar panel manufacturers guarantee their products are free from material and workmanship flaws. Their warranty typically lasts for 10 to 25 years, offering extended coverage.

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard.

There are two basic types of warranties that cover solar panels. A product warranty protects you from defects in a solar panel stemming from material quality or manufacturing errors. This is also referred to ...

Solar panels generally come with two warranties: The product warranty covers the equipment and typically guarantees at least 10-12 years without fail, and the power or performance warranty often ...

Typically, solar panel manufacturers provide at least a 10-year product warranty, but some premium manufacturers offer warranty periods ranging from 15 to 25 years.

Knowing the standard timelines for a solar panel warranty helps set realistic expectations for your system's longevity and performance. The combination of a 25-year performance warranty, a 10 to 25-year product ...
