What happened to wood pallets for solar panels?

While performing rural solar installations in Northern Missouri, Luke Phelps and his team at a regional solar design and installation company quickly realized the amount of waste, lost time, and expense associated with the single-use wood pallets on which their solar modules were shipped to installation sites.

What is pvpallet?

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for residential, commercial, and utility-scale solar projects. Reduce waste, improve efficiency, and ship solar modules and balance of system components safely.

Will pvpallet revolutionize the way we ship solar panels?

At least that's our approach. PVpallet is the first solar shipping solution to revolutionize the way solar modules are handled and distributed.

What is Oppvpallet?

PVpallet is the first solar shipping solution to revolutionize the way solar modules are handled and distributed.

A wide variety of solar panel pallets options are available to you, such as 270 w, 275 w and 280w. You can also choose from bifacial, half cell and n-type solar panel pallets, as well as from 150-200w, 200 ...
