What is LZY containers?

LZY Containers provide innovative mobile solar container solutions for businesses worldwide. Our mobile solar systems are designed to be reliable, efficient and easy to use. Explore LZY Containers's customizable and scalable solar container solutions, with rapidly deployable folding PV panels combined with containerized designs.

What are mobile solar containers?

Mobile Solar Containers revolutionize energy access. Compact & portable, they integrate foldable photovoltaic panels for swift deployment. Overcoming bulkiness of traditional mobile stations, these containers offer efficient power supply, enhancing convenience & environmental sustainability. Product Introduction

What is a solar container?

The Solar container is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.
