What is a planned outage?

Planned Outages are scheduled power outages that are necessary for EFL to carry out critical repair or maintenance work on our power lines in a particular area. Usually customers are notified days in advance of the selected areas that will be affected by a Planned Outage.

What causes an unplanned power outage?

Unplanned Outages can be caused by traffic accidents, damage to power lines, and most commonly storms and high winds. To view our schedule of Planned Outages or to check if there is an unplanned outage in your area please visit our Power Outages page.

When should I be notified of a planned outage?

Usually customers are notified days in advance of the selected areas that will be affected by a Planned Outage. Unplanned Outages can be caused by traffic accidents, damage to power lines, and most commonly storms and high winds.
