Why should you choose a 19-inch outdoor patch cabinet?

This transports the warm air out of the cabinet faster. The 19-inch outdoor rack has an IP value of 55. IP55 means that the rack is dustproof and spraywater-proof. So with our 19-inch outdoor patch cabinet, you do not have to worry about the safety of your network equipment. Everything is safely stored in this patch cabinet.

What is a 19-inch outdoor rack & how does it work?

The holes are covered so that water cannot get into the cabinet when it rains. In addition, the cabinet has a built-in fan. This transports the warm air out of the cabinet faster. The 19-inch outdoor rack has an IP value of 55. IP55 means that the rack is dustproof and spraywater-proof.

What is a wall / pole mount 19 inch outdoor rack enclosure?

AZE's wall /pole mount 19 inch outdoor rack enclosures are designed with durable powder coating and flexible configurations, they can protect sensitive network equipment and outplant power solutions from harsh environments where equipment may be exposed to dust or water.

What is the difference between a 'normal' and an outdoor server rack?

The difference between a 'normal' server rack and an outdoor server rack is that the outdoor rack is weatherproof. It has a welded construction and a lockable door. The rack has mounting points at the back to which you can attach it to a wall. Even with an outdoor server cabinet, ventilation is important.
