Changi Airport is set to establish the largest single-site rooftop solar panel system, contributing significantly to sustainable energy initiatives. The project aligns with Singapore's ...

Changi Airport Group (CAG) has appointed Keppel Ltd. (Keppel), to design, build, own and operate a large-scale solar photovoltaic (PV) system on the rooftop areas of Changi Airport's ...

When completed in early 2025, it will be Singapore's largest rooftop solar PV system in a single location, airport operator CAG and asset manager Keppel announced on Feb 14.

Changi Airport Group (CAG) has initiated a groundbreaking project in collaboration with Keppel Ltd., marking the commencement of construction for a vast solar photovoltaic (PV) system ...

Work has officially begun at Changi Airport on an ambitious solar photovoltaic (PV) project, marking a significant step forward for Singapore's renewable energy landscape.

Changi Airport Group (CAG) has partnered with Keppel Ltd. to develop a major solar photovoltaic (PV) system across the rooftops of Changi Airport's terminal buildings.

Spanning a duration of 25 years, this initiative aims to culminate in Singapore's largest single-site rooftop solar PV system, with an anticipated completion date set for early 2025.

Work has started at Changi Airport on the largest single-site rooftop solar panel system in Singapore. (Photo: Changi Airport Group)

This ambitious solar energy project at Changi Airport underscores Singapore's dedication to sustainability and serves as a pioneering example of integrating renewable energy solutions within ...
