What if I don't register my solar panels?

If you're a shared owner or a homeowner and you haven't registered your solar photovoltaic (PV) panels, and they were installed after 14 January 2016, you can apply to your electricity supplier to get the 'Feed-in tariff' (FiT) payments. This is in effect a grant from the Government according to how much electricity your panels are generating.

Do I need a permit to install solar panels?

If you want to install solar panels, obtaining the proper solar permits is an essential step to ensure your energy system can operate safely, legally, and at no risk to your roof, home, or those living on site. To help set project expectations, prepare for your installation and maximize long-term savings on your electricity bills.

How do I get a solar permit?

Come prepared every step of the way. To file for your solar permit, you may need to provide proof of home ownership alongside detailed site plans, system specifications, contractor licenses, and other relevant documentation.

Where can I find solar permitting information?

If you're unable to see permitting information on your local government or energy utility websites, it may be possible to call a local representative or find information through resources like the Solar Energy Industry Association's state-by-state database. Come prepared every step of the way.

Investing in a solar system is one of the best ways to cut down your energy bill and contribute to a greener planet. However, the transition to solar energy is not as simple as installing ...

During the solar PV installation, a Licensed Electrical Worker (LEW) will be responsible for turning on the solar PV system. The LEW will handle tasks such as applying for the required ...

During the solar PV installation, a Licensed Electrical Worker (LEW) will be responsible for turning on the solar PV system. The LEW will handle ...

Guidance for device owners and installers on how to register energy devices, including heat pumps and electric vehicle charge points.

National Portal for Rooftop Solar - Ministry of New and Renewable Energy

To register for solar photovoltaic installation, follow these steps: 1. Research local regulations and incentives, 2. Select a qualified solar installer, 3. Complete necessary paperwork, ...

Discover how to easily navigate the solar permit process in this guide, with step-by-step instructions, tips, and frequently asked solar panel permit questions.
