We develop and realize solar parks and renewable energy solutions in Europe for a sustainable future. Discover our projects and solutions.

In recent years, the PV+ model in China has been developing with a particularly strong momentum. This innovative model has not only promoted the transformation and upgrading of the ...

Our solar systems are designed to power your entire home effeciently, making it a smart investment for long-term savings. Switch to clean energy with CHINT"s reliable and innovative PV ...

According to Nan Cunhui, chairman of CHINT Group, the company"s "methodology" is to "strengthen industries through addition". Notable projects include the construction of Asia"s largest 550 megawatt ...

Recently we had the chance to visit the project sites with the opportunity to have a peek into the half-completed PV plants, whose EPC services are both contracted by Chint Solar.

In the regions where wind power generation and small-sized hydraulic power generation are available, combined power generation system can be set up, e.g. wind power generation and solar power ...

Zhejiang Chint New Energy Development Co., Ltd. is a clean energy enterprise under the Chint Group, specializing in the technological development of photovoltaic power generation systems and building ...

Through our technologies and expertise, we are making deeper integration of solar power into various scenarios. The best way to boost economic benefits out of limited land availability.

Accurate assessment of the photovoltaic (PV) power generation potential in China is important for the reduction of carbon emission intensity and the achievement of the goal of Carbon ...

Solar Photovoltaic Power Generation Chint

Top five! Chint power has won the 365 global photovoltaic ranking list!
