Can Australia help secure Tonga's outer island energy needs?

Australia also has a long history of engagement in relation to helping secure Tonga's outer island energy needs. In the early 2000s, Australia funded the Ha'apai Outer Islands Electrification project (HOIEP), which involved the installation of diesel-powered generators and electrical reticulation on four islands in the Ha'apai group.

How many people have access to electricity in Tonga?

This means that little more than 30,000 people are spread across 35 islands, presenting acute issues in terms of the provision of modern infrastructure. At OIREP commencement, the ADB estimated that 89% of all households across Tonga had access to electricity.

How much does electricity cost in Tonga?

According to UK-based aggregate website Cable, Tonga's electricity is the 13th most expensive in the world, at an average cost of USD 0.35 per kilowatt hour (kWh).

Why did OIREP work with Tonga Power Limited?

OIREP's on-grid work was always a matter of laying the foundations for further investment in renewables and enjoyed the ease of working through one implementing partner - Tonga Power Limited - who were incentivised to help ensure the program succeeded given they will manage all on-grid assets post-project.

Energy Storage (batteries): Excess energy produced during sunny hours is stored in battery banks, batteries provide power during nighttime or cloudy days, ensuring 24/7 electricity supply.

The South Pacific's largest energy storage facility. The two battery storage facilities installed in Tonga are complementary: the aim of the first 5 MWh / 10 MW battery is to improve the electricity grid's ...

At the heart of this transformation is the Outer Island Renewable Energy Project (OIREP), supported by the Asian Development Bank (ADB) and co-financed by the European Union and other ...

Across the period 2010-20, Australia (with development partner support) committed support to the Tonga Energy Roadmap 2010 - 2020 (TERM) - a ten-year plan aimed at providing a ...

Tonga's northwest deploys energy storage batteries

Tonga Power will gain experience in using the most cost-effective and fully integrated approaches to designing renewable-energy and battery energy storage systems, and in developing ...

How will Tonga move away from fossil fuels? This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver utility-scale storage systems to provide base ...

Why Tonga's Energy Storage Project Matters to the Pacific Region The Tonga Integrated Energy Storage Power Station represents a groundbreaking shift in how island nations can achieve energy ...

Completion of South Pacific's largest storage projects in Tonga, an enabler to the energy transition in the Pacific Islands

Tonga Power Limited is currently undertaking renewable energy projects, network upgrade projects as well as Battery Energy Storage projects which all contribute to ensuring Tonga Power provides ...
