Based on Multi-busbar technology for better light trapping, lower series resistance, improved current collection and enhanced reliability. Reduce installation cost with higher power bin and efficiency. ...

With a maximum power of 450 W and an efficiency of 22.5%, it utilizes advanced N-Type TOPCon technology, which ensures high performance and long-lasting durability. This module uses a double ...

The Trina Vertex S+ 450W Dual Glass Full Black N-Type Monocrystalline Solar Panel is a premium solar solution designed for those seeking high efficiency and modern aesthetics.

Trina 450 W photovoltaic module from the Vertex S+ range is made of monocrystalline cells with 210 silicon wafer in i-Topcon N-type technology. Vertex S+ has several innovative design features that ...

The panel delivers 450W output power and 22.5% module efficiency. The upgraded dual glass of Vertex S+ is less prone to micro-cracks and scratches on the back during installation.

New in 2022, the Vertex S+ is Trina's first N-Type panel. With a Dual-glass design, the S+ offers high reliability to harsh conditions and better light trapping for high power outage.

High reliability with light double glass - Less prone to micro-cracks and scratches on the back side -Excellent re rating, weather resistance, sustainable in harsh environments and extreme weather ...

The robust double-glass construction ensures excellent resistance to fire and environmental influences and is certified for test loads of 5,400 Pa snow load and 4,000 Pa wind load. Thanks to a positive ...

With an output of 425 W to 450 W and an efficiency of up to 22.5 %, it delivers stable yields and excellent temperature stability. The double glass design ensures improved mechanical resilience, ...

Trina photovoltaic panel double glass 450

The Trina TSM-450W NEG9R.28 is a 450W N-Type Solar Panel with a black frame. The panel adopts a durable dual-glass design and utilises N-Type i-TOPCon cells, which helps to achieve higher power, ...
