What is a pre-assembled solar container?

Pre-assembled containers with fold solar panel. Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Are all solar refrigerators DC powered?

All our units are DC powered and operate independent off the grid. Requiring as little as 45W of power, the entire line of DC powered products operate using a single solar panel and battery. All Solar Refrigerators and Solar Freezes are manufactured to military standards and have an internationally recognised quality assurance system in place.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
