Do I need a power adapter in Kyrgyzstan?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Kyrgyzstan, you will need a power adapter and/or a voltage converter/transformer.

How does a power converter work in Kyrgyzstan?

A power converter changes the voltage from your home country's standard to the standard in Kyrgyzstan. This is necessary to prevent damage to your electronic devices. An adapter is used to change the shape of the plug to fit the outlets in Kyrgyzstan.

What if my devices are not compatible with the voltage in Kyrgyzstan?

However, if your devices use a different plug type or are not compatible with the voltage in Kyrgyzstan, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Kyrgyzstan is 220 V, and the standard frequency is 50 Hz.

What type of plug does Kyrgyzstan use?

Kyrgyzstan uses two different plug types: C and F. Plug type C is the plug which has two round pins. Plug type F is the plug which has two round pins with two earth clips on the side. Both plug types are widely used in the country, so you should be able to find compatible outlets in most places.

Find the best Kyrgyzstan travel adaptors (plug type C/F). USB, USB-C & multiplug versions. Safe, reliable and in stock for 2025. Essential for Bishkek and more.

You will need power plug adapter for sockets C and F when traveling to Kyrgyzstan. However, we recommend buying a universal travel adapter that fits multiple sockets.
